

### **Nutrition Resource Center - Buy American**

Please note: Gordon Food Service relies on vendor-supplied information, we do not make assumptions based on information available to us, but we depend on the vendors to make the appropriate label claims.

Buy American: Gordon Food Service has asked vendors of all stocked items to provide a response to determine if their products comply with the Buy American Provision. This information is available in Online Ordering and can be shared with members. Additionally, any documentation or letters received regarding Buy American will be shared with HPS leadership for access to their members.

Nutrition information: The Nutrition Resource Center (NRC) maintains and updates the GFS nutrition database. This nutrition data is accessible via Online Ordering, HPS Menu Planner and also upon request in Excel reports.

CN/PFS: The NRC reaches out to specific vendors every year to request updated CN labels or PFS. For those vendors who respond, we will share that documentation with HPS leadership team to allow for access by their members by May 1 annually. Additionally, members can access this documentation independently in Online Ordering.
